

# COLLE ISARCO

**Località San Antonio 8 km from Colle Isarco**

**Tel. 0472 – 632466**

**Fax 0472 – 632476 – 633069**

## Useful Information

The Colle Isarco Base is located in the upper part of the Isarco Valley, surrounded by the Dolomites. Nearby you can find other tourist destinations, such as Merano, Vipiteno, and Innsbruck. One structure has three different buildings made up of en-suite rooms and mini-apartments. A few kilometers away, there's a 2nd structure with other comfortable apartments. At times known for its mines or its strategic railway station, today Colle Isarco is known for its diverse nature activities. From the city you can go horseback-riding, mountain biking, hand gliding, paragliding, or rafting. There are many beautiful things to see including the Zur Hölle waterfall, the Stein cliffs, and the high Tirol pass.

## How to reach the Base:

**By Car:** Take the Brennero A22 motorway. Exit towards Vipiteno and follow the signs for Brennero.

**By Train/Bus:** There are several IC and EC trains which stop at Bressanone, Fortezza, and Brennero. From the train station take one of the shuttles that depart multiple times a day.

There are regional trains that connect Verona to Brennero and stop directly in Colle Isarco. The station is about 200 m from the base.
