

CECINA

Villa Ginori, 100 57023

Tel. 0586 620593

Useful Information:

The resort is located at the mouth of the Cecina river whose banks are formed by coarse-grained river sand mixed with shingle. On the beach there are about 200 beach umbrellas with chaise-lounges, deck chairs, twin-hulled row boats, pedalos, canoes, bicycles for rent and about 100 beach huts. In order to protect the beach from waves and rollers, an artificial reef has been built in front of the shore. Due to its particular position, the sea in this area is characterized by strong currents and is not suitable for inexperienced swimmers. Entertainers organize evening dancing and musical events, in addition to games for children. Moreover, scuba diving courses may be set up for free. Finally, a series of agreements with local shops helps in making the stay more pleasurable. Year-round, and especially during the summertime, the Cecina municipality organizes events, feasts and fairs.
