Division	ESSOR Programme Division
Section	-
Management of Staff	0
Location	Bonn, DE
<u>Initial</u> Contract Duration	3 years (starting from the signature of the ProgD)
Closing Date for Applications	3 November 2025
Start Date	1 March 2026 (subject to the signature of the respective ESSOR Programme Decision)
Interview Date	Week commencing on 8 December 2025

1. Background

The aim of the ESSOR Programme is to develop and produce a complete portfolio of European Software Defined Radio (SDR) products to meet the requirement for interoperable tactical communications in multinational deployment of the Participating States, through the following Programme activities:

- Contribute to the development of an autonomous European Defence Technological Industrial Base in SDR through the establishment of the normative referential required for the development and production of a military SDR in Europe;
- Define and maintain a referential system architecture for ESSOR shared at European level and develop an associated certification environment;
- Develop a complete family of SDR applications providing interoperability to tactical communications in the land, 3D, airborne and maritime domain;

- Develop and maintain a through Life Management (TLM) approach ensuring the maximisation of the benefits to the Programme Participating States throughout the entire lifecycle of the developed systems;
- Support the standardisation efforts of the ESSOR products in the relevant for a (e.g., NATO, EDA, Wireless Innovation Forum, FMN).

The tasks carried out within the ESSOR Programme will concern the following activities for the ESSOR Architecture and the HDR waveforms (named as ESSOR Products):

- developing and testing of new waveforms;
- the technical and operational development of the ESSOR Products;
- the standardisation of the ESSOR Products;
- Management of the ESSOR Product lifecycle through functions like ILS, Requirements Management, Information Lifecycle Management, Life-cycle cost estimate;
- Preparation of subsequent Programme stages.

2. Duties and Responsibilities

The Information Security Specialist 2 shall contribute to achieve the technical High-Level Objectives (HLO) of the programme by supporting the Technical Section Leader in the field of information security.

The post holder, as **Information Security Specialist 2**, will:

- coordinate all activities related to information security, including the activities of the ESSOR Information Security Working Group (ITSecWG);
- provide regular reports to the Programme Manager;
- maintain, monitor and manage internal and external action lists related to information security;
- draft, coordinate and distributes minutes of ESSOR ITSec Working Group Meetings and other meetings in the field of information security;
- support the Risk Officers in identifying, assessing and mitigate risks related to the information security;
- elaborate common operational exercise scenarios for the ESSOR product also in conjunction to the main multinational exercises (e.g., CWIX);
- support the identification of operational needs and development of a suitable CONOPS for the use of the ESSOR products and their harmonization, especially in the field of the information security;
- review of the contractual deliverables related the security of the ESSOR products;
- conduct and support the security assessment of the ESSOR product capabilities.

The post holder, as **Designated Security Official**, will act under the authority of the Programme Manager and will liaise with Security Section and will:

- support the implementation of internal procedures related to Information Security (IP, OMP, PSI...);
- assist OCCAR Security Section in developing and coordinating approval process for security related documents and procedures (PSI, FSC...);
- establish the Need-to-Know for PD staff for access to classified information and coordinate assessment on the Need-to-Know of visitors to their PD;
- ensure the correct handling, management and transmission of RESTRICTED Information;
- prepare and distribute to partners (Government establishments and industry) relevant Programme-specific encryption keys;
- support and implement programme-specific security arrangements, in particular with regard to aspects of security classification;
- coordinate the process of releasing classified information to non-Programme Participating States;
- support PD staff members requiring Visit Requests;
- conduct internal and support the external audits related to information security.

If necessary, the post holder will undertake temporary additional tasks:

- for common activities as required, jointly by the Programme Manager;
- for activities concerning only the Participating State from which is a national, as required by the PM.

The post holder shall co-ordinate with the ESSOR Commercial Section, the ESSOR Technical Section and the Programme Manager for all activities.

3. Key competences and skills required for the grade

(You must provide evidence of meeting these key competences and skills in your Application, Section 12).

- CS 1** The ability to establish and maintain excellent working relationships at all levels in a multicultural context and with respect for diversity;
- CS 2** Excellent interpersonal and team working skills with the ability to interact and communicate at all levels within OCCAR as well as with Nations;
- CS 3** The ability to work in a changing, developing and demanding environment;
- CS 4** The ability to implement clear, efficient and logical approaches to work, to manage assignments, objectives and time;
- CS 5** The ability to use Computer and Information Technology (ICT) facilities and be able to demonstrate a good working knowledge of MS Office software.

4. Specialist knowledge and experience required for the post

(You must provide evidence of meeting these specialist requirements in your Application, Sections 10 and 11).

4.1 Essential:

- ES 1** Knowledge and experience in COMSEC, TRANSEC and NETSEC techniques;
