

VACANCY NOTICE	
Post	A910 - OPERATIONAL COMMUNICATION SPECIALIST
Grade	A3*
Division	ESSOR Programme Division
Section	Technical Section
Management of Staff	0
Location	Bonn, DE
Initial Contract Duration	3 years
Closing Date for Applications	11 May 2026
Start Date	01 September 2026
Interview Date	Week Commencing 15 June 2026

1. Background

The aim of the ESSOR Programme is to develop and produce a complete portfolio of European Software Defined Radio (SDR) products to meet the requirement for interoperable tactical communications in multinational deployment of the Participating States, through the following Programme activities:

- Contribute to the development of an autonomous European Defence Technological Industrial Base in SDR through the establishment of the normative referential required for the development and production of a military SDR in Europe;
- Define and maintain a referential system architecture for ESSOR shared at European level and develop an associated certification environment;
- Develop a complete family of SDR applications providing interoperability to tactical communications in the land, 3D, airborne and maritime domain;
- Develop and maintain a through Life Management (TLM) approach ensuring the maximisation of the benefits to the Programme Participating States throughout the entire lifecycle of the developed systems;
- Support the standardisation efforts of the ESSOR products in the relevant for a (e.g., NATO, EDA, Wireless Innovation Forum, FMN).

The tasks carried out within the ESSOR Programme will concern the following activities for the ESSOR Architecture and the ESSOR waveforms (named as ESSOR Products):

- developing and testing of new waveforms;
- the technical and operational development of the ESSOR Products;
- the standardisation of the ESSOR Products;
- Management of the ESSOR Product lifecycle through functions like ILS, Requirements Management, Information Lifecycle Management, Life-cycle cost estimate;
- Preparation of subsequent Programme stages.

2. Duties and Responsibilities

The Operational Specialist shall contribute to achieving the technical objectives of the programme by supporting the Technical Section Leader in the field of ground (wide band and narrow band) communications.

The post holder will:

- Support the Risk Officers in identifying, assessing and mitigate risks related to the ESSOR programme;
- Elaborate common operational exercise scenarios for the ESSOR product in conjunction with the main multinational exercises (e.g., CWIX);
- Support the identification of operational needs and development of a suitable ConOps for the use of the ESSOR products and their harmonisation;
- Review of the contractual deliverables related to common activities contributing to the approval/acceptance process of the common deliverables;
- Contribute to the approval/acceptance process of the common deliverables;

- Support the TSL or the PM in the internal quality functions, i.e., compliance of the ESSOR PD processes to the OCCAR-EA policies and guidelines;
- Support the TSL or the PM in the elaboration of technical requirements for new phases/stages of the ESSOR Programme, as required by the PM;
- Undertake temporary additional tasks for common activities or activities concerning only the Participating State;
- Prepare subsequent Programme stages contributing to consolidate the operational needs;
- Co-ordinate with the ESSOR Commercial Section, the ESSOR Technical Section and the Programme Manager for all activities;
- Provide regular reports to the Programme Manager.

3. Key competences and skills required for the grade

(You must provide evidence of meeting these key competences and skills in your Application, Section 12).

- CS 1** The ability to establish and maintain excellent working relationships at all levels in a multicultural context and with respect for diversity;
- CS 2** Excellent interpersonal and team working skills with the ability to interact and communicate at all levels within OCCAR as well as with Nations;
- CS 3** The ability to work in a changing, developing and demanding environment;
- CS 4** The ability to implement clear, efficient and logical approaches to work, to manage assignments, objectives and time;
- CS 5** The ability to use Computer and Information Technology (ICT) facilities and be able to demonstrate a good working knowledge of MS Office software.

4. Specialist knowledge and experience required for the post

(You must provide evidence of meeting these specialist requirements in your Application, Sections 10 and 11).

4.1 Essential:

- ES 1** Knowledge and experience in operational preparation, deployment and management of radio systems for tactical ground forces (i.e., past experiences in a J6 cell or NOC);
- ES 2** Knowledge and experience in the organisation of operational field test for testing capabilities of radio systems for tactical ground forces;
- ES 3** Knowledge and experience in doctrinal work (e.g., ConOps);
- ES 4** Knowledge and experience in various radio systems for tactical ground forces.

4.2 Desirable:

- DS 1** Knowledge and experience in operating network management systems of radio systems for tactical ground forces;
- DS 2** Knowledge and experience in operating security management systems of radio systems for tactical ground forces;
- DS 3** Previous working experience within an international environment;
- DS 4** Prior experience in an operational front-line environment (ground forces).

5. Language Requirements

- ADVANCED level of ENGLISH both oral and written.
- Additional knowledge of another OCCAR Member or Participating State's language will be considered as an asset.

6. Qualifications

A university degree or equivalent qualification in a relevant technical discipline is considered desirable.

7. Security Clearance

Security clearance at OCCAR Secret level is required for this post.
